

## Biography

### Quentin Lefebvre (Dr. rer. nat.)

Quentin Lefebvre obtained his Master degree in physical sciences and chemistry in 2011 at the École Normale Supérieure de Lyon as 'élève normalien'. After a PhD at RWTH Aachen with Prof. M. Rueping and a two-year postdoctoral stay at the University of Bristol with Prof. J. Clayden, he joined SpiroChem AG, a CRO in the field of Medicinal Chemistry based in Basel (Switzerland), in late 2018. He is now Team Leader, Project Leader, and R&D coordinator, working across several different projects in Medicinal Chemistry and promoting enabling technologies such as photoredox catalysis.
